Vehicle Temperature Monitoring Systems for K9 Safety

Sentry Plus

More Choices to Fit Your Needs! We Can Customize to Your Specifications!

Plus features added to the Cool Dog & Sentry

- Four individual high temperature sensors, User alarm point settable. (Factory preset to 85f) Users choice of how many sensors are used, 0-4, unused sensors will not activate alarm)

\$1,099

(standard solenoid)

- Dual low voltage alarm, (1) factory set point of 10v, (2) user settable from 10-16v. (Factory preset 10.ov)

\$1,249

(long through solenoid)

- Back lighted LCD display. Auto scrolls through each temperature sensor. Pauses 3 seconds on each sensor.

- Wide temperature sensor range, 32F-230F.

Cool Dog Plus

- Immediate alarm display of any sensor at alarm point, scrolls through all alarm points. Allows fast identification of the trouble areas).

- Wide application use, K9 area, AC, vehicle coolant temperature, radio bay, trunk, etc...

\$799

Option of "stay on". Units can be built to stay on if the control head cable is unplugged. (Unit must be powered on with the control head attached first.)

Sentry

Temperature Monitor System and Door Opener with Remote

Standard Solenoid for the latch, gas strut (40#)

5' Control Head Cable

Backup & Primary Temperature Sensors

System Interconnect "Pigtail"-2' long which allows installer to use their preferred wire

Unit will roll down up to 2 windows and has an accessory output to control other audio/visual signal systems (lights, horn, auto system alert, etc...)

\$895

(standard solenoid)

\$1,045

(long throw solenoid)

Cool Dog

Temperature Monitor System

5' Control head Cable

Backup & Primary Temperature Sensors

System Interconnect "Pigtail"-2' long which allows installer to use their preferred wire

Unit will roll down up to 2 windows and has an accessory output to control other audio/visual signal systems (lights, horn, auto system alert, etc...)

\$650

K9 Breeze

Stand Alone Fan Controller

10" Fan

5' Control Head Cable

Primary Temperature Sensor w/readout version

System Interconnect "Pigtail"-2' long which allows installer to use their preferred wire

2 Versions: with or without temperature readout

\$375

(no temp readout)

\$425

(w/temp readout)

K9 Release

Stand Alone Remote Door Opener

Remote

Standard Solenoid for the Latch-Gas Strut 40#

Requires external power control, simple toggle switch, or can be controlled by other vehicle system control panel.

\$525

(standard solenoid)

\$675

(long throw solenoid)

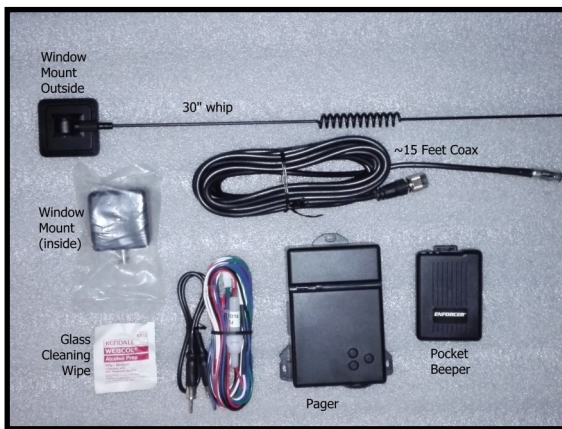

Vehicle Temperature Monitoring Systems for K9 Safety

Full 20' Harness available as an option on all systems.

Options

Long Throw Solenoid	\$150
60# Gas Strut	\$45
8" Fan	\$119
10" Fan	\$129
12" Fan	\$139
15" Fan	\$139
Longer Control Head Cable	\$1 per foot
Full 20' Harness	\$45
Spare Temperature Sensor (backup or primary)	\$25
Spare Remote (same code)	\$100
Spare Control Head	\$100
Window/Lock Relay Module (allows isolation interface to the vehicle)	\$40
Latch Relay Module	\$50
Pager with Glass Mount Antenna (~30")	\$300
Longer Range Pager Antenna (~5')	\$125

Pager System with Glass Mount Antenna

Cool Dog Watch

Customizable System For All Types of Animal Transport Trailers

Main Components Consist of:

Cool Dog Watch (CDW)

Main unit installed in trailer.

Monitors temperature and voltage.

Four independent programmable heat sensors and one programmable low voltage sensor.

Standard temperature sensor range is from 30F to 230F. Option available for extended version from 15F to 300F for an additional charge.

Voltage sensor is programmable from 8v to 28v and its application is for low voltage alarm.

Includes one 12' sensor cable with two 3' pigtail sensor.

(Complete Package purchase includes two cables).

Four different alarm outputs with different patterns.

Cool Dog Watch has wireless connection range of 150' with the CDW Remote Display.

Choice of Fahrenheit or Celsius. Request Celsius when ordering.

CDW Remote Display

Installed in towing vehicle.

Displays temperature and voltage readings from the Cool Dog Watch.

Temperature sensor readout are sequentially scrolled with each sensors detected temperature.

Four different alarm outputs with different patterns. (CDW Accessory Box preferable for high current outputs.)

CDW Accessory Box

Preferable method for adding pager, lights, and horn alarms to any component for ease of installation.

Cool Dog Watch Basic

Standalone system confined to the trailer.

No wireless connection.

Does include alarm outputs for flashing lights or horn alarm.

Four different alarm outputs with different patterns.

Optional Paging System available for all components of the Cool Dog Watch.

Two year warranty.

V³ – Viper Vertical Vent

V³ 500 F1

Viper Tactical V³ 500F1 IED Transport Trailer

The world's best commercially produced explosive transport system. With a specialized chamber system the V3 can remain in service for over 30 years!

Call for a quote

- * Easily Replaceable Inner Blast Chamber (1" thick)
- * Outer Blast Chamber acts as a fail-safe (1/2" thick)
- * Interior layer of vermiculite permits easy towing by a standard SUV

Options

Equipment Box

Custom specifications to house your robot or other large IED equipment. Increase functionality and safety for your team members by including these upgrades.

\$7,200

Approximately H: 56" x W: 44" x L: 60"

Kevlar Lined Explosive Device Basket

Designed to help reduce the risk to IED Technicians and surrounding pedestrians.

\$1,550

Rear Access Ramp

\$925

Red/Blue Emergency Lights

\$700

Hi-Brite Boom Lite

\$400

100' Extension Control Cable

\$250

Parking Brake Application

Available for electric brakes on one axle.
Manual lever to activate brakes.

\$1,500

**Customized options available upon request.
Customized prices vary with the feature desired.**

International Distributor discount rate is defined in our distributor contract.

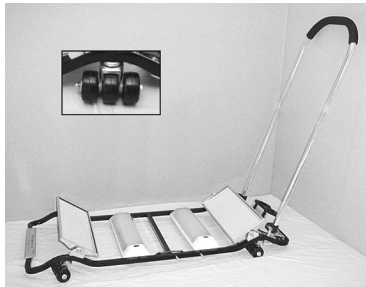

Building IED transport systems is a highly specialized field.

Therefore, we require full inspection and acceptance before shipment.

Under Vehicle Search Mirrors

Reveal

L x W=42" or 1,067mm X 14.25" or 361.9mm
Handle Length= 37" or 939.8mm
Weight= 24 lbs or 10.89 kg
Power Supply= 1-12v DC Sealed Battery

The Reveal is a horizontal periscope to search under vehicles that are as low as 6 inches. Reveal's height of 5 13/16-inches has the ability to search under virtually all vehicles. Selecting a taller configuration eliminates many passenger vehicles from the search process and does not increase the field of view.

\$749

Reveal Deluxe

Reveal Deluxe includes a
Solar Panel.

\$1,100

Reveal Jr

Specifications:

Length: 38" Collapsed
54" Extended

Weight: 2 lbs

Mirror: 8" Convex

8 1/2 " Convex for Reveal Jr Deluxe

\$199

Reveal Jr Deluxe

Reveal Jr Deluxe also includes battery charger with
rechargeable batteries and wheels.

The Reveal Jr and the Reveal Jr Deluxe hand held units are the perfect portable search companion for Bomb Squads, Narcotics Units, SWAT Teams, Security Stations, and Special Operations. It is an invaluable aid to any officer conducting searches of vehicles, buildings, and any other hard to examine areas. These simple and effective systems peers deep into dark crevices and around corners extending your sight while keeping you at a safe distance.
